PROPOSAL
For The Re-Inhabited Republic For Florida
Manning The Florida Congress

</div>

TO: **Honorable MICHAEL BISHOP**, Governor, Florida
          State Officers: Clyde Cleveland, Jim Costa, Robert Elling, Beverly Killmore,
                             Kristy Lefferts, Craig Pearson, Susan Price.

The Problem:

How will we send delegates to the Florida House of Representatives and the Florida Senate?

Facts & Assumptions:

A) The current Corporate Florida Government has 120 members of the House and
     40 members of the Senate.

B) In bringing up the Republic, we were told to elect 2 delegates from each county.
    Florida has 67 counties, yielding 134 delegates to what I believed to be the
    House of Representatives.   If we follow this line of thought, that makes 135 House
    members , counting the 1 appointed by the Governor.

C) The Current Florida Corporate Government currently has a Senate map for 40 Senators
    based on current Population   See: **Senate Map**

D) We have been telling Florida members that the Delegates were for the House.

E) How do we now fill the Senate and at what numbers?

F) The Counties will be doing work not done for for 150 years, that is controlling the State
    Government and their now County Government.   They can use an increase from 120
    House Representatives (1.79 per County) to 134 (2 per County).

The Plan:

1) Send 2 Representative to the State, per county (134).

2) At the 120 day Election, elect 134 Representatives, losing the first interim
    Representative appointed by the Governor.

3) Hold a special election in a months as more counties raise assemblies.
    Elect 40 Senators using the current Senate map.
    This puts 41 interim senators in the state congress.

4) At the 120 day Election, elect 40 Senators, losing the first interim Senator appointed by the Governor.
